Julie Isphording

"Very few surfaces provide Olympic level speed and cushioning suitable for everyday training. The new Olymp-XX track surface by Horner Sports Flooring is just that."

"It is a fast surface while still providing the forgiveness needed for everyday training. If I had trained and competed on Olymp-XX™ throughout my entire running career, who knows how many more years I could have stayed at my peak."

"I would recommend Olymp-XX™ track surface to any coach who wants to achieve the best performance from their athletes, while minimizing the effect of long-term degenerative injuries."
